The following fuel shipments left the large hydrogenation plant at Boehlen for Zhabinka:

25X1A		41 railroad tank cars
		25 railroad tank cars ¹
		25 railroad tank cars ¹
		23 railroad tank cars

The shipments operated through Frankfurt/Oder²

25X1A 1. Comment: The two shipments observed by two sources on 11 and 12 March were fairly definitely one and the same shipment.

25X1A 2. Comment: The information that fuel shipments left Boehlen during this period contradicts information, received through another channel, that no exports of gasoline were to be made from Boehlen during this period.
